

JORDAN THOMAS *Solar*

Who is Jordan Thomas, Inc.?

Founded in 1984, Jordan Thomas, Inc. provides administration capabilities to manufacturers and financing partners worldwide. We manage transactions between *every entity you need* for the financing of even the largest solar power system.

Tax-Exempt Leasing with Jordan Thomas

Although PPAs have attractive rates and savings, if you're unwilling to write a check to just another energy provider and in turn have control and own your own energy production capabilities, Tax Exempt financing is another solution for your school or other government entity. Tax exempt financing trades off some of the short term savings for a very attractive purchase option in the fifteenth year: \$1!

- 15-year term
- Fixed utility escalator for the term
- \$1 purchase option — no Fair Market Value (FMV) headaches
- Have complete control over your energy production prices by owning and operating a solar energy system
- Improve cash flow with cheaper solar energy offsetting higher priced and unknown utility grid prices
- Your school or government entity is not only improving cash flow, but is improving the country and the planet!
